

Dovico Timesheet Components:

Dovico Timesheet includes two major categories of functions; administrative functions used by managers for setup, monitoring and reporting, and time and expense entry views used by everyone to enter time and expenses.

Dovico Timesheet includes other useful tools:

- **Dovico Apps** to extend the functionality of the core software (<https://www.dovico.com/tools>).
- **Job Scheduler** used to automate some reporting and notification functions.
- **Import/Export App** to import or export employees, projects, tasks, time entries, etc., (<https://www.dovico.com/tools>).
- QuickBooks® integration via our **QuickLink** app (from <https://www.dovico.com/tools>).
- **Active Directory:** An integrated link to Microsoft's® Active Directory service allows employees to be imported from Active Directory and also authenticates Dovico Timesheet login user IDs and passwords against Active Directory.

2. 14 Day Trial

Starting with Dovico Timesheet

Online 14-Day trial

Simply click on the Login link provided in the e-mail received following your completion of the sign up form and then go to the next page of this guide to get on your way.

A personalized database is created when using the 14-day trial. This database is available anytime during your 14-day evaluation.

Important things to note:

- Free technical support is available for your 14-Day trial period.
- Before using, Dovico Timesheet should be flagged as a safe site for your popup blocker.
- Dovico Timesheet is delivered with a demo database to help you review and familiarize yourself with the software.

3. Administrative Functions

Dovico Timesheet's administrative functions are used to create the projects and tasks all employees track their time against, and to monitor and report on time, costs, progress, etc. for one or more projects.

Administrative functions are only available to those users with suitable software access rights and security levels as defined when each user is added to the software.

Login In

If evaluating Dovico Timesheet using our 14-Day Online trial, click on the Login link provided in the e-mail received following your completion of the sign up form.

Before using, Dovico Timesheet should be flagged as a safe site for your popup blocker.

Navigating Within Dovico Timesheet:

Dovico Timesheet offers access to all views and tools through the **Menu** button located in the upper left corner.

To access the time and expense entry views, click the **My Time & Expenses** option in the menu.

General Requirements

Before employees can begin tracking their time and expenses, these general requirements must be completed.

Employees

In Dovico Timesheet, anyone who enters time and expenses, or who manages, monitors or reports on project activities is considered an **Employee**.

The Employees list pane (Menu > Admin tab > Employees) is the location where employees using the software are listed and can be added or edited. For each employee, a profile stores their user id, password, security level, their hourly pay/billing out rates and many more useful details.

Tasks

Task Templates are activities or work efforts against which employees track their time. Tasks are mandatory components required for time tracking.

The Tasks list pane is the location where tasks are listed and can be added or edited. (Menu > Admin tab > Task Templates)

Projects

Projects are the combined endeavors undertaken to create a unique product, service or result. A project is a mandatory component required for time tracking. Project information can include details such as a project manager, project start/end dates and project status.

Projects are listed in the Project Hub. From there you can add and edit a project and its properties. (Menu > Manage Projects tab > Projects).

Assignments

Project Assignments are the unique links between projects, tasks, and employees that define how a project is organized for time entry. Assignments must be created before employees can begin tracking their time.

A project's Tasks section is where assignments are created and managed. Assignments made in this view appear in Dovico Timesheet's time entry view with each employee only seeing the specific projects and tasks that have been assigned to them.

These four steps (adding employees, tasks, projects, and creating project assignments) are the minimum steps required to be completed before employees can begin tracking time and expenses. The next page outline what is required for more targeted goals such as creating estimates/budgets, etc.

(Optional)

Currencies

Currencies is an optional feature making currency selection options available to users so that expenses, employee wages, and other data affecting costs can be entered in any of the enabled currencies. This feature also permits costs to be viewed in any currency within the software. (Menu > Admin tab > Currencies)

Specific Goals

Are projects on time and on budget?

Project Budgets

When a project's settings include the 'Budgeted Hours' option, you can to establish detailed company and client cost budgets and for those tracking actual time and costs against estimates.

Reports

The **Reports** view is used to display a wide variety of time and cost reports. For example; locate and run the **Project Time & Costs** report to view one of the many available reports. (Menu > Manage Projects tab > Reports)

Collect time for payroll purposes, review and approve employee timesheets and expenses?

Time & Expense Approvals

The **Approval Workspace** area is used to review, approve or reject time and expenses submitted by employees. (Menu > Manage Projects tab > Approval Workspace > Time & Expense Approval)

Workflow

The **Workflows** tab is used to establish which manager must approve an employee's timesheet and/or expense submissions before those submissions can be processed for project costs, billing, reports, etc. (Menu > Manage Projects tab > Approval Workspace > Workflows)

Leave/
Absences
Rules

The **Leave/Absences** Rules view allows a manager to apply the policies that automatically calculate how much vacation, sick leave, and other leave that an employee accumulates. (Menu > Admin tab > Leave/Absences Rules)

Reports

The **Reports** view is used to display a wide variety of time related reports. Locate and run the **Time entries by Employee** report to see actual hours worked for each employee by date, project, and task. (Menu > Manage Projects tab > Reports)

Track time and expenses to accurately bill clients?

Clients

Clients are companies, business units, or individuals for whom work is performed. Clients can be linked to specific projects if time or expenses associated with projects are billable.

Clients are added and edited from the Assignment tree in the Project Assignments tab. (Menu > Admin tab > Clients)

Approved
Expenses

The **Approved Expenses** view is used to review or edit expense information. (Menu > Manage Projects tab > Approved Expenses)

Reports

The **Reports** view is used to display a wide variety of costing and billing reports. The **Client Time and Costs** report provides a summary of actual hours worked, and the client and company costs. (Menu > Manage Projects tab > Reports)

4. Time and Expense Entry

Only once projects and tasks have been created and assigned to employees (Section 3) are users able to start tracking time and expenses using Dovico Timesheet. Projects and tasks are used to identify what you are tracking. Projects and tasks are created and assigned by managers or empowered employees using the software's administrative functions and views.

This section introduces you to only the **very basic concepts** and commands required to track time. To fully benefit from all the features, please review the software's help system or the User's Guide.

Time and Expense entry views are available to all employees tracking their time and expenses. To quickly learn how to enter time, access Dovico's free On Demand Training by clicking on the [Training Videos](#) button from the Login screen.

How Employees Enter Time and Expenses

Each employee is assigned a unique login ID and Password from the administrative tools. These should be communicated to each employee along with company/database name and the URL required to launch Dovico Timesheet.

To enter time against a task:

The time entry screen is accessed by clicking the Timesheet tab near the top of the screen.

1. Check the **task assignments** you wish to track time against (from the assignment tree on the left).
2. Add these to the weekly grid by clicking the **Add to Timesheet** button.
3. In the timesheet grid, click in the **cell intersecting** the appropriate **task** and **day of the week**.
4. Enter the **number of hours** worked against that task.

- Optionally enter **details** for the time entry using the lower part of the screen.
- Enter time on other task assignments as required.
- Click the **Submit** button once all entries have been made for the day, week or as chosen by your company policies.
